This has been a very unusual year for us all. The Village Hall Committee took the decision to have work done. The door from the Hall into the loo area has been widened to make it disable friendly, the toilet areas have been refurbished new joists were necessary in the ladies as the old ones had perished thank goodness no one had fallen through.

Decorations were completed thoroughlout with new blinds . The roof was cleaned of moss and the outside treated with wood preservative. The outside was tidied and the trees trimmed around the back.

I am pleased to report that we are starting to get enquiries regarding bookings for the coming year.
