

7c

We live in a group of 6 houses on the outskirts of Whatlington between B2090 Park Lane and B2089 Battle Road.

Although there is a verge outside the properties it is banked, narrow and not maintained making walking to the start of a pavement opposite Battle Road for the bus stop difficult.

There is also access to a public footpath from this verge before the pavement starts.

In the other direction towards Park Lane there is a Whatlington name sign straddling the verge which is not high enough for an average person to walk underneath. This verge is also not easy to walk along and it is necessary to cross over the road several times making walking to the main area of Whatlington e.g. the garage or Royal Oak to support local businesses challenging, especially if with children and/or pets.
